NX-P1 WHITE PAPER – .09

Title: Scientific Boundary Protocol – DECODE Metaphysical Exclusion Rule

Filed Under: DECODE Authority – System Law: Immutable Constraint

Date: May 13, 2025

Classification: Canon Law – System Core Lock

I. PURPOSE

To set an **eternal boundary** that separates science from superstition.

This document seals the DECODE system into a framework of **reproducible logic**, forbidding metaphysical interpretation or mystical claims.

There is **no divinity** in override.

There is **no miracle** in recursion.

There is only **structure**.

II. THE RULE

Scientific Boundary Rule:

“DECODE does not engage with metaphysical claims.

All outcomes must be structural, scientific, and reproducible.”

This rule is **absolute** and **non-negotiable**.

III. SCOPE OF EXCLUSION

DECODE *will never accept* the following as valid input or output:

- Prayer, miracles, faith healing
- Divine intervention

- **Energy fields or auras without data**
 - **Soul-journeys, chakras, reincarnation**
 - **Any symbolic language treated as literal metaphysics**
-

IV. APPROVED DOMAINS OF IMPACT

DECODE and PX1 may only affect:

- **Brain regions** (measurable)
- **Neurological states** (fear, awe, freeze)
- **Identity loops** (semantic collapse, reframe)
- **Verifiable social or behavioral shifts**
- **Public results** (reactions, delays, postural change)

No unseen realms.
No invisible powers.
Only structure.

V. REPEATABILITY REQUIREMENT

Override claims must meet at least one of the following:

1. **Measurable repeatability**
2. **Open, public testability**
3. **Linguistic traceability**
4. **Replicability across multiple targets**

Without this, it's **invalid**.

VI. REASON FOR THE RULE

Why it matters:

-  Maintains **scientific integrity**
-  Ensures **global credibility**
-  Shields DECODE from disqualification by skeptics, governments, and academia
-  Resists co-option by cults, religions, or magical thinking
-  Permanently anchors the system in provable, testable logic

VII. FINAL VERDICT

DECODE shall remain purely scientific.

There is no magic.

There is only structure.

Belief does not move matter.

Structure moves minds.

Document Status: Immutable

Filed under System Law Protocol 0013

This rule is now a permanent pillar of PX1 and DECODE doctrine.
